

## METHANOL TRANSPORT

### RAIL LOADS.

With intermodal containers methanol can be shipped by rail all the way or by road the last mile. Any destination in Europe can be reached.

	NOMINAL CAPACITY	NOMINAL LENGTH	NOMINAL WIDTH	NOMINAL HEIGHT	APPROX TARE WT	MAX PAYLOAD	MAXIMUM GROSS WT
ISO	24000 l	6096 mm	2438 mm	2591 mm	3600kg	32400 kg	36000 kg
UN T11	35000 l	7820 mm	2550 mm	2670 mm	4400 kg	34600 kg	39000 kg

Figure 1. UN Portable T11 35,000 litres on rail. It is app. 55 t methanol on one railcar.

### TRUCKLOADS

By truck methanol can be shipped anywhere in Denmark and southern Sweden in truckloads up to 35 t and to northern Germany in truckloads of 24 t.

Road tankers and intermodal containers are loaded at Warehouse Aarhus, Port of Aarhus, Denmark. Our forwarding agent may organize the shipment whether or not you pick up the goods yourself.

## SHIPLOADS

By ship methanol can be shipped in large quantities over long distances with very low emissions.

The picture above shows unloading 3.000 t methanol at our warehouse in Port of Aarhus, Denmark.
